## Creative Designer

Seeking a challenging and rewarding career opportunity that will utilize my experience and skills as a highly skilled and talented creative professional.

---

### Summary:

- Eighteen (18) plus years experience in graphic design, web/interactive, layout, illustration, and photography.
- Diverse background in design related fields including online, multimedia, print and large format graphics.
- Consistently delivers high-end, creative artwork and designs to meet time deadlines and budget constraints.
- Developed graphics and design work for large local companies such as Wegmans, Kodak, Xerox, and Ortho-Clinical Diagnostics.
- Proficient in the latest industry standard design software and current with the most up-to-date design styles and trends.
- Contributed to the success of each organization for which I was employed by working with others to promote a positive atmosphere and implement successful design strategies.
- Successful at working independently and excels at taking responsibility for my own projects and assignments.
- Outstanding client interaction skills for requirements gathering and excellent project management and organization from start to finish.
- Excellent verbal and written skills as well as being exceptionally talented at visually communicating concepts, ideas and information clearly.

---

### Accomplishments:

- Created over 200 website designs for clients of various industries in the Rochester, Buffalo and Syracuse areas.
- Effectively created branding solutions and marketing campaigns for products and services of numerous businesses and organizations.
- Expertly juggled multiple projects covering diverse industries while creating high-end visual communications.
- Initiated various processes and work flow patterns that have enabled better project understanding and faster turn-around of deliverables.
- Quickly learned new tools, methods and practices to become a valued employee to all the organizations I have worked for during my career.

---

### Expertise:

- Adobe CS4 - Photoshop, Illustrator, Dreamweaver, Flash (timeline animation and basic AS), Contribute, InDesign, Acrobat
- CorelDRAW, QuarkXPress, MS Office
- XHTML, CSS, JavaScript, JQuery
- Online CMS applications including Pagelime, Cushy, Surreal
- DSLR cameras and lenses, digital scanning, photo restoration
- Corel Video Studio, 3D Studio Max, Cult3D, AutoDesk Inventor

---

**Experience:**

---

**BizWonk Inc.**

Creative Designer/  
Web Developer  
4/2010 – Present and  
2/2006 – 10/2006

- Developed websites using tableless CSS layouts and maintained quality web standards and practices.
- Knowledgeable in SEO techniques and best practices and created SEO friendly designs and layouts for customers.
- Modified and updated existing customer sites including adding pages, updating graphics, and re-designing templates.

---

**LogicalSolutions.net / ITX**

Creative Web Designer  
8/2007 – 1/2010

- Created website design concepts, layouts, graphics, flash animations, and email templates.
- Supported design, development and launch of numerous internal products, software, and marketing efforts.
- Played a large part in the sales process to help customers pre-visualize their design needs.
- Worked independently on the design phase of projects and also as part of team to ensure the designs were developed and constructed properly.

---

**MGLomb Advertising**

Multimedia Designer  
10/2006 – 8/2007

- Rendered 2D and 3D artwork for print and online materials.
- Created designs for print ads, web sites, trade show graphics, business collateral and multimedia presentations.

---

**NF Associates / Kenda**

Graphics Specialist  
1997 – 2/2006

- Implemented illustration standards and techniques that led to transitioning from hand-drawn (and scanned) artwork to computer based vector graphics and eventually product photography.
- Created 1000's of scalable and editable line-art graphics that assisted technical writers with the development of technical documentation and training materials.

---

**Freelance Creative Designer**

1994 – Present

- Create artwork, photographs, illustrations and designs for web sites, multimedia, and printed collateral and documentation.
- Work includes: logos, t-shirt designs, brochures, newsletters, web sites, interactive media, video production, and portrait photography.

---

**MirrorShowManagement**

Graphics Designer  
1994 – 1997

- In charge of graphic design and production for various nation-wide trade shows and events.
- Created large-format signs, graphics, banners as well as design concepts, floor-plans and mockups.

---

**Wegmans**

Graphics Artist  
1993 – 1994

- Worked in Employee Communications on production of various design materials such as newsletters, logos, t-shirts, ads, spot art illustrations, posters, and flyers.

---

**Education:**

- **Empire State College** | 2003 – 2011 | Bachelor of Science Degree in Art with concentrations in Graphic Design and Web Development
- **Finger Lakes Community College** | 1991 – 1993 | Associate in Applied Science Degree in Graphic Arts
